#### **DAY 01      28 Apr 13      Upington - Cammspannen Private Reserve and 4x4 Trails**

Arrive at Upington Airport at 11:00 from Cape Town. Depart to Cammspannen Private Reserve. Cammspannen is a privately owned Nature Reserve, uninhabited and management of the Reserve has been taken over by Dantes Liebenberg. Cammspannen is situated in the Mier area in the most remote part of South Africa, 320 km from Upington via Twee Rivieren on the R360. Cammspannen covers 12 800 ha of typical Kalahari duneveld in the Arid Savannah biome of South Africa. Its northern border is 500m south of the Kgalagadi Transfrontier Park's southern border and in the west it borders on Namibia.

Gemsbok, red hartebeest, blue wildebeest, springbok, duiker, steenbok and ostrich are residents. The main carnivores are leopard, brown hyena, caracal, black-backed jackal and African wild cat. Kori Bustard, secretary birds, martial -, black breasted snake - and tawny eagles and southern pale chanting goshawks are common sightings.

Do a night game drive with the possibility to see nocturnal animals including aardvark, porcupine, aardwolf, springhare, leopard, Cape fox, bat-eared fox, African wild cat, small spotted genet and striped pole-cat.

**Overnight:      Camping at Cammspannen Tent Camp**

**Meals:            B & D**

#### **DAY 02      29 Apr 13      Cammspannen - Kgalagadi Transfrontier Park**

Do a morning game - and scenic drive on a 4x4 trail. Depart to **Twee Rivieren Camp** in **Kgalagadi Trans Frontier Park**. Continue on an afternoon game drive in the southern section in this 37 000 square km park, which is one of the largest conservation areas in the world and one of the last truly unspoilt ecosystems.

Endemic game such as gemsbok, springbok, eland, giraffe, blue wildebeest and red hartebeest roam the sparsely vegetated red sand dunes and the dry river valleys of the Nossob and Auob where a variety of acacia species thrive.

The Park is well known for good sightings of lion, leopard and cheetah and spotted - and brown hyena are common residents. Because of an abundance of prey in the form of mice, whistling rats, birds and insects, smaller predators thrive in the park. The park is home to caracal, honey badger, black-backed jackal, bat-eared fox, cape fox, African wildcat, mongoose and the ever-popular suricate (meerkat).

Kgalagadi is a bird watcher's paradise with more than 300 species recorded including at least 20 larger raptor species. The world's heaviest flying bird, the Kori bustard and the stately secretary bird patrol the riverbeds while the noisy northern black korhaan rule in the dunes.

The Twee Rivieren area is known for lion, leopard, cheetah and meerkat sightings.

Exit the park late afternoon and proceed to Kgalagadi Lodge 06 km outside the park.
